

YOUR JOURNEY, YOUR MUSIC

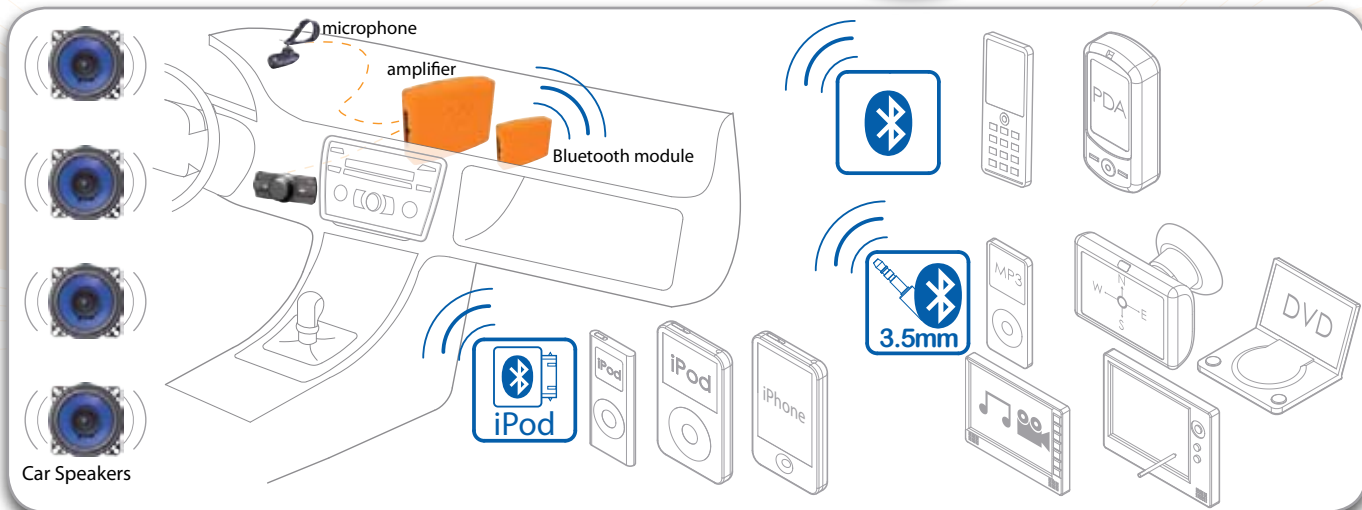

iO PLAY opens up the world of Music streaming & Mobile Phone Handsfree possibilities. iO PLAY allows the use of portable audio devices – such as MP3 players, mobile phones and Sat Nav – through your car stereo system simultaneously and wirelessly using Bluetooth technology. iO Play has been designed primarily for the music lover, but possesses the added benefits of enhanced hands-free and Sat Nav functionality.

MAIN FEATURES

-  Stream Music from any of your Portable Devices wirelessly into all your existing vehicle speakers.
-  Simultaneously make and receive phone calls while streaming music from a 2nd portable device.
-  Easy to use iO PLAY control console, which can be mounted anywhere in your vehicle.
-  Make your journey more exciting with excellent sound quality and performance, using Class-D Amplifier Technology.
-  All your connected audio managed the way you need it to be with "iO" AudioSense Technology.
-  Innovative design that will easily fit your vehicle and your audio system.
-  Enjoy auto-connect when you enter your vehicle by storing up to 5 portable devices in iO PLAY memory.

 Specially designed technology for your portable satellite Navigation Voice Instructions.
