

YOUR JOURNEY, YOUR WORLD

iO TALK1 is a simple to use Bluetooth hands-free car kit and music streaming device, which delivers high quality stereo audio through your car speakers. Your conversation and/or audio will be integrated into the front two speakers of your car audio system whilst muting your other speakers in the vehicle.

MAIN FEATURES

Make and Receive Mobile Phone Calls Wirelessly Handsfree in your Vehicle.

Innovative Design that will easily fit into your existing vehicle's audio system.

Easy to use illuminated Wireless Remote Control to Answer or Make calls.

Innovative iO TALK Voice Spoken Menu Navigation available in many languages. Even the callers telephone number is spoken on an incoming call (this feature can be turned off).

Intensify your iO TALK experience by selecting 1 of 5 preset ring tones.

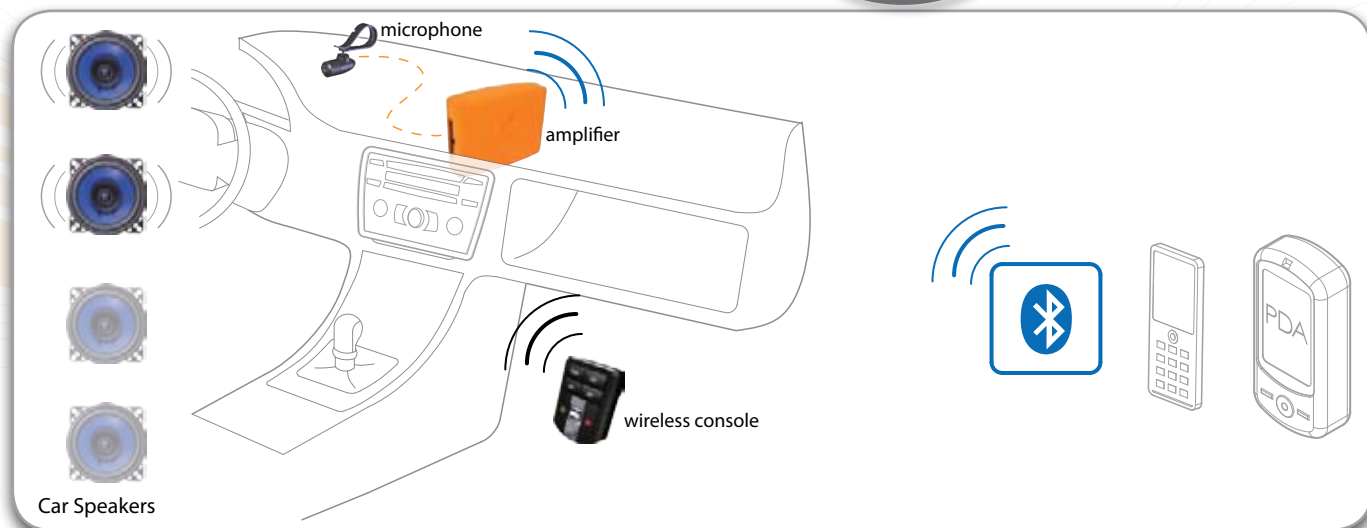

Make your journey more exciting and simultaneously connect and stream audio from a 2nd portable device.

Enjoy auto-connect when you enter your vehicle by storing up to 5 Mobile Phones in iO TALK memory.

Excellent Sound Quality is streamed through the 2 front speakers in your vehicle.
